

A Unique Gift For Sustainable Tourism Members & Partners

Thanks to GreenStep Sustainable Tourism you have helped fight climate change with nature

Your gift funds projects that help WWF-Canada preserve ecosystems across Canada where the most carbon can be captured and stored while maximizing habitat for wildlife. By using the restorative power of nature, we can stop wildlife loss and fight future climate change at the same time.

You are also helping fund important projects that engage people like you in actions to restore nature and biodiversity in urban areas.

To learn about all the ways you can help nature thrive with WWF-Canada, visit wwf.ca/takeaction.

Thank you!

Megan Leslie
President & CEO, WWF-Canada
